

PLUS szövetminták

Szeretné, ha akusztikus bútorelemei színükben összeillenek a környezettel? A HONacoustic kollekció bútoraival ez szinte játék. A minőségi textilanyagok vezető beszállítóktól származnak. Válasszon a dekorációs szövetek széles választékából, amelyek megfelelnek a tűzveszélyességi, az ökológiai, az akusztikai és egyéb tulajdonságoknak. Az általunk készített három anyagsorozat segít abban, hogy a belső térhez tökéletesen illeszkedjenek, esetleg éppen ellenkezőleg, egy-egy megfelelő szín kiválasztásával élénkítsék azt, és ezzel az akusztikus bútorait irodája jellegzetes dizájnelemévé emeljék.

A **PLUS** sorozat széles színválasztékban kapható, így a megfelelő árnyalat kiválasztása nem okoz gondot. A textíliák nem éghető Trevira CS szálakból készülnek. A Jet Bioactive anyag az ezüsttartalmának köszönhetően erősen antibakteriális hatással bír.
